A. Rush Esq.

Sir,

Treasury Department,
Comptroller's Office
4 August 1874.

Your account as Treasurer of the Mint
for Gold and Silver bullion deposited at the
Mint for Coinage from the 1st April to the 30th
June 1874, has been adjusted at this Treasury;
and an aggregated balance was thereupon
stated to be due to the U States and remaining
to be accounted for of one hundred and eighty
seven thousand, seven hundred & eighty five
dollars, and thirty five cents and five mills.

I am respectfully,
your obed^t Servant,
J. Bacon

James Pursh, Esq.
Treasurer of the Mint

Treasury Department
Register's Office, Sept^r 12. 1814.

Sir,

I have the honor to request that the usual
Estimates for the Year 1815, may be made out, and transmitted
to the Treasury Department as early as convenient for the
purpose of being laid (by the Secretary of the Treasury)
before the Legislature of the U. States at their ensuing
Session.

I have the honor to be,
Sir, Your Mo. Obedt. Serv^t

Wm. Barclay.

Sir

Washington Dec^r 23. 1814.

Your favor of 20.th Inst. is received,
informing me that the Treasurer of the Mint has in his
hands \$2578⁰⁰ arising from the issue of Copper Coins, subject
to my order. I request the favor of you to cause the same to be
placed to my credit in the Bank of Pennsylvania, and when
a further ^{in copper coins} sum is on hand that you or the Treasurer will be so
good as to let me know, when I will make some arrange-
ment for it's regular distribution.

I have the honor to be respectfully, Sir

Your obed^t. Serv^t

Thos. T. Tucker

James Rush, Esquire,
Treasurer of the U. States.

Treasury Department
Dec: 6th 18th.

Sir,

Your several letters asking for an advance of money, on account of the expenses of the Mint, have been received.

There is no money, or bank-credits at Philadelphia applicable to this object; but if Treasury Notes will answer, they shall be sent.

The course of the Treasury does not permit the application of the monies now in the hands of the Treasurer of the Mint, in account of copper coinage, in the manner you suggest; and those monies must be paid over by him in the same manner as heretofore.

I am very respectfully,

Sir, Your Obed: Servt.

A. J. Dallas

Robert Patterson Esq:
Director of the Mint
Philadelphia.

The Director of the Mint finds himself under
the disagreeable necessity of reducing the number
of workmen in this establishment. You will therefore
be notified that after the termination of
the present year, you will consider yourself
as discharged from any further attendance or
services at the Mint.

I have had the honor to receive your letter of the 22nd ultimo.

The balance of the existing appropriation available to the purchase of Copper being but 14,267¹/₂ Dollars it is not in my power considering the present rate of Exchange, to comply with your request in its full extent. I have, however, directed bills to the amount abovementioned to be purchased, and when received they shall be immediately forwarded to the Treasurer of the Mint.

With respect to the disposition of the coins when coined, I am of opinion, that it will be advisable to pack them in kegs as heretofore, observing to put an equal number in each keg, and then deposit them in the Bank of Pennsylvania to the credit of the Treasurer of the United States. It is to be understood, however, that the Bank is not to commence issuing ^{the} cents until instructed, on that point, by this Department.

Treasury Department
December 21st 1815.

Sir

The appropriation for the purchase of copper for coinage has been considered (and it is believed correctly) at the Treasury to be liable, under the same circumstances as other appropriations, to be carried to the surplus funds; and portions of it have, from time to time, been thus carried to that fund: which explains the difference between the Mint account enclosed in your letter of the 14th inst., and the Treasury account of that appropriation.

Whatever sum in coined cents may be paid in to the Treasury, will become immediately applicable to the purchase of copper; but, in addition to this, an appropriation payable out of other monies, will be asked for from Congress. You will judge, whether an order for more copper should now be given, or should be delayed till Congress shall have decided, as to the additional appropriation, which now possibly may not be done before the month of March.

Dear Sir

Baltimore Oct. 12. 1846.

I left Philadelphia the day after the arrival of the Lancaster or I should have had the pleasure of calling upon you respecting a repetition of the order for planchets. I have now been detained longer from home than I expected and I have got so much business to transact in this city that I cannot leave it to return to Phila in less than 10 days or a fortnight. — I hope the delay will be of no consequence to you as it respects ^{the} supply of blanks, but yet be, & by you will do me the favor of informing me that I may do all I can to prevent or remove inconvenience. —

Mr. McKee informs me that the rolls were made, but being a little faulty, he rejected them & which had prevented their being shipped sometime before the date of his letter (August 8). They may be soon expected. —

Should you have an opportunity of meeting with a bill of exchange before I return you would very much oblige me by remitting it at once to our house at Birmingham. — As soon as I return, if not before, I hope to receive your further commands.

My address here is at Thomas, George & Son

It is hereby agreed between Robert Patterson Director of the
Mint of the United States and William Harrold of the City
of Philadelphia Merchant: That the said William Harrold
shall have prepared and furnish to the Mint Twenty Tons
of Copper Cent Planchets, in the proper state fit for striking
and of the legal weight of seven penny weights to each cent - That
they shall be put up in substantial casks, and shipped from the
Port of Liverpool so as to arrive at Philadelphia during the
ensuing Spring in some good American Vessel, on which he is
to make insurance in England, and the freight whereof is to
be paid by the Director of the Mint on their arrival at the
par of exchange. - The said Robert Patterson hereby agrees
to pay to the said William Harrold, who assigns, for the
said Copper at the rate of fifteen pence half penny sterling
for each pound avoirdupois provided - the price of copper remains
as it was at the time of the execution of the last order for five
Tons of planchets (say in March last) but if the price of copper
shall have risen in England at the time this present order
arrives there, then the said Robert Patterson agrees to allow a
proportionate advance not exceeding ten pounds sterling per
Ton - and it is agreed on the part of William Harrold that if
the price of copper is lower ^{or lower} than it was at the time aforesaid
Robert Patterson shall have the advantage of the fall -
Robert Patterson further agrees to pay to Wm. Harrold who
assigns the charge of insurance (without commission) and the
usual charge for casks, duties, & shipping charges at Liverpool
and also the canal freight from Birmingham to Liverpool -
The amount of the Invoice to be paid in Philadelphia, within
Thirty days after the arrival of the Vessel at the current

rate of exchange at that time - In Witness whereof the said
Parties have hereunto set their hands the ninth day of November

Sir.

Your letter of the 25. ult. has been received.
The Act of Congress has only appropriated 15,000 Dollars for the purchase of copper; and the present state of the exchange is so disadvantageous, that I think it would be advisable to postpone a remittance for a short time, if it can be done without injury to the public credit, or finance.

Your proposition for the distribution of the Cents, that have been already coined, is referred to the Treasurer, who is empowered, by law, to make the immediate Report upon the subject.

Sir

Washington June 10th 1816.

On removal of the Government of the United States from Philadelphia, it became necessary that the Treasurer of the U. States should appoint an Agent for the distribution of Copper Coins, and Israel Whelan Esq^r Paymaster of Public Supplies was appointed by Mr. Meredith my predecessor.

On the demise of Mr. Whelan, Tristram Loxe Esq^r being appointed to the same Office, I appointed him also to the Agency, which he held until the suspension of that coinage took place.

I was always of opinion that the Treasurer of the Mint, if he would undertake it, could with most facility execute this duty. A suggestion to the same effect has lately been adopted by the Director of the Mint to the Secretary of the Treasury, & by the latter communicated to me for my decision.

Presuming that this suggestion was made with your knowledge & assent, I now offer you the Agency.

Should it be agreeable to you to accept it, you will please to proceed to the distribution with impartiality, having regard to the intention of the Law & the interest of the United States, according to the best of your judgment, subject always to the control & instructions of the Treasurer of the United States.

Y^{rs}

It is required by the Secretary of the Treasury that for every parcel dis-
tributed, full & immediate ^{payment} of the amount be secured in Spain or Treasury Notes,
& not otherwise.

It is desirable that all the payments should be made into one Bank (say
the Bank of Pennsylvania) to the credit of the Treasurer of the U. S. in distinct
& separate accounts.

The expense of transportation by water (including insurance) to be made
by the Government will be defrayed by the Government.

A commission of one per cent on the amount distributed was allowed by
Mr. Gallatin to be paid to Mr. Coxe, and it is presumed that Mr. Dallas will
now sanction a like commission.

At the end of each quarter, an account is to be rendered to the Treasurer U. S.
of the several sums distributed & paid for, accompanied with a Bank Receipt
for each sum.

Also a separate account of the expenses of distribution (including Mr.
Agent's commission) accompanied with a Voucher for each charge, however small,
for the amount of the account, which being submitted to
& approved by the Accounting Officers, a Demand will be issued to the
Treasurer U. S. authorizing the payment thereof.

Accompanying this, you will receive an Order from the Secretary of
the Treasury to Jonathan Smith Esq. Cashier, to return to you the Copper Coins
which have been deposited in the Bank of Pennsylvania by the Secretary's
direction.

You will also receive several letters addressed to you, requesting supplies

of Copper Coins, to which you will please to pay due attention, having
regard to their respective dates.

Committee Room 24 Jan, 1816.

The select committee on sundry resolutions in relation to the copper coinage of the U. S. have directed me to request of you information on the following points, viz:

1. What is the present price of copper suitable for coinage?
2. What was its highest price during the late war?
3. Is there any inconvenience or fraud to be apprehended from the reduction of the weight of the copper coin? and if not, to what extent might it safely be reduced?
4. In case of the reduction in its weight, would it be advisable to make it a legal tender to a small & limited amount, and to provide against illegal impressions and importations?
5. In the event of the weight being reduced one half, how many tons of copper can be coined at the mint, upon its present establishment in one year? and whether, in that event, it would not be advisable to coin two-cent pieces, and even four-cent pieces, and discontinue the coinage of half-cents?
6. Would the mint experience any inconvenience from the reduction to an equal number of penny weights, say four for instance; or would its present arrangements require a different reduction?

You are also requested to furnish the committee with any other information upon the subject which you may deem calculated to lead to a beneficial result.

very great Inconvenience I Labor under at
my Office on Acct of making Change—
Our Banks here have issued small
Bills on purpose to Accomodate this
Office—they have now issued all the Bills
they calculate to—We can obtain no Cents
from our Banks in this City—nor from
Albany—I now find it morally impos-
sible to make Change for Letters taken
out of this Office—I have to request the
favor you would give Directions to
the Superintendent of the Mint in Phil-
adelphia to Deliver to our Order
One Hegg of Cents—One Hegg of Half
Cents—for the Accomodation of
this Office solely—The Superintendent
may either give a Draft upon me—or
I will Enclose the Am^t for Mail—either
will be promptly attended to—As this is
for a Publick Office—the third Office
of the kind in Importance in the State
I feel a Confidence for, you will give Orders

Sir I have the Honor to inform you of a
very great Inconvenience & Labor under at
my Office on acct of making Change—
Our Banks hitherto have issued small
Bills on purpose to Accomodate this
Office—they have now issued all the Bills
they calculate to—We can obtain no Cents
from our Banks in this City—nor from
Albany—& we find it morally impos-
sible to make Change for Letters taken
out of this Office—I have to request the
favor you would give Directions to
the Superintendent of the Mint in Phil-
adelphia to Deliver to our Order
One Hegg of Cents—& One Hegg of Half
Cents—for the Accomodation of
this Office solely—The Superintendent
may either give a Draft upon me—or
I will Enclose the Am^t for Mail—either
will be promptly Attended to—As this is
for a Publick Office—the third Office
of the kind in Importance in the State
& full of Confidence for you will give Orders
that the Inconvenience & Labor under
may be remedied—I have the Honor to
remain with sentiments of respect

TREASURY OF THE UNITED STATES,

WASHINGTON,

Decr 20 1817

SIR,

Enclosed you will find my draft No. 1111— on B. U. S. payable
at the *A. M. S.* — for, dollars, *A. 500* —
the amount of warrant No. 378— issued by the Secretary
of the *Treasury* — on receipt whereof be pleased to favor me
with an early acknowledgement, specifying the sum received.

With due consideration, I am,

Sir, your obedient servant,

W. L. Tucker
Treasurer of the United States.

James Rush Esq
Treasurer of the Mint

New York 10th Decemr. 1817.

Robert Patterson Esq^r.

My dear Sir,

At the request of the
Directors of the Mechanics' Bank, I take the
liberty of soliciting your kind attention to the
recoining of fifty thousand Spanish milled
Dollars into quarters & ten cent pieces. They wish
to have ten thousand dollars in ten cent pieces, and
forty thousand dollars in Twenty five Cent
pieces, & would esteem it as a favour if the
change could be delivered at different times, in
sums of about ten thousand dollars as the coinage
may be completed - Mr. Kuhl Car^r of the Farmers'
~~Bank~~ Mechanics' Bank would take charge
of these amounts, as they might be ready for
delivery. The Dollars are now sent on in
the charge of Mr. Wm. A. Davis, who will deliver
you this. I remain Yours with respectful
Diva Belthune.

Washington Dec. 5. 1877

Dear Sir

I duly received your letter of the 2nd inst. and shall not neglect the subject you recommended to my attention. - The reasons you offer for establishing the mint permanently at Philadelphia, appear to me to be sufficient; especially since the Bank of the United States has been ~~now~~ located there. - The continuance of the mint at Philad^a - so long, by acts of Congress passed from time to time, shows there have been some advantages there not to be obtained here; and the circumstance of fixing the Bank in that city, would seem also to favor the mint there -

Respectfully

Yours &c

Sir

Your favor of 12th Inst^s was duly received
and as the times are very dull and I have a considerable parcel of the
Acid Nitrous Spirit of the Temple sent you, on hand; I am willing to deli-
ver you at Philadelphia a few Hundred Weight of it at sixty cents per
pound: and in order to give it a fair trial, I send you as annexed
below, an Order on M^r Sam^l Palmer Druggist of Chestnut Street
for Two small Cartons of the same, which I have lying in his hands,
that is in case you may please to send for them, I will draw on you
for the amount of them, after you honour me with an answer of
acceptance and return with much respect

I am sorry that untill now I never had it ~~power~~
fully in my power, to send you a sample of my Acid Nitrous
Salt, I now leave a Vial of it with Mr. Samuel Palmer for
a trial, if it meets your approbation, I can furnish you with
what quantity you may want at twenty five Cents per Pound.
Mr. Palmer has Two small Carboys of it now in his possession
& you can have them immediately, if the rest please send
from my Factory at Elizabeth Town New Jersey, at the
shortest notice - I would do myself the pleasure to call
on you, but I must set off home next morning early.

My Dear Sir,

I have been requested by the Directors of our Bank to enquire of you what would be the probable result as to gain or loss, if they should send you Spanish Dollars to be received into halves & quarters at the Mint - We have heard there would be about two to three hundred dollars of an increase, about sufficient to pay the expenses of transportation & returns - If you should calculate on such a result, we would be likely to forward to you one hundred thousand Spanish dollars on trial.

Please offer my kindest regards to Mrs Patterson & your children - I hope that your Mrs P will again be good enough to spare Matilda to come on with Mr Duffield, as Mr McFarlane

Agreeably to the request contained in your letter of the 18th inst, I have the honor of enclosing a statement, exhibiting a view of the funds applicable to the purchase of Copper, by which it appears, that the unexpended balance of the appropriation amounts to \$19,191.61— The variation between this sum and the sum reported in my letter of the 13th inst, arises from an omission to ~~the~~ credit the fund with the amount appropriated for the present year, and with three several deposits, in cents in the Bank of Pennsylvania, in the month of November & December last.

To enable you therefore to comply with your engagement with Mr. Proctor, the Treasurer of the United States has been instructed to remit to the Treasurer of the Mint, Fifteen thousand Dollars, in a draft on Amoskeag Smith Cashier of the Bank of the United States— to be received by him, in bills of Exchange on Great Britain for the object above mentioned. I think it would be advisable however that Mr. Smith the Cashier should be consulted as to the solvency of the Drawers & Indorsers.

Sir

By direction of John Porter Esq: Commander of the U. S. Brig Boxer I have shipped for the Chas. Capt. Story from this place 2 Boxes marked "Boxer" containing gold & silver Dollars to your order as Director of the Mint of the United States for the purpose of being coined. Through some inadvertence the Bills of Lading have been mislaid. Should I not have an opportunity of procuring them I presume an application to Capt. Story in your official Capacity will be all that is required.

It may be proper to state that this Bullion has been regularly condemned in the U. S. District Court in New Orleans and is that part of the Cargo of the Cometa decreed to John Porter for himself and others -

Contents of the Boxes

144 pieces Silver weighing 18730 lbs 18558

Sir,

I received by yesterdays mail your
favor of the 2^d inst. The seal for which Mr. Kops wrote,
and which you have been good enough to say should
be executed at the mint, is intended to be used
upon letters only, and with wax. It will never
be necessary to use it with wafers; it being intended
for our foreign letters altogether, which must be closed
with wax. As to the particular size of the seal
you can exercise your own judgment.

I should be obliged to you to expedite
the execution of it as much as circumstances will
admit of, and when finished, to forward it to
me by mail, if no traveller should be destined
to this place, to whom you can with safety
commit it.

With great respect
I have the honor to be

Dear Sir,

Some years since when I had the pleasure
of seeing you in Philadelphia you observed to
me that your having employed an Astronomical
Engineer it might be convenient to the general
Government to have seeds that might be marked
engraved on the Mint. —

During last session Congress several new offices
were created and my friend Mr. Stephen
Plesantou has been appointed Auditor for
the Department of State, in whose Office I now
write, as the greater part of the foreign correspond-
ance has fallen to his share a Public ^{seed} is wanted

Having taken the liberty of mentioning your
name to Mr. P. with your former observations
to me on the subject, he has advised me to
request the favor of you, in case it would

La Notificazione delle 15. Maggio 1818. contiene la Tariffa
di tutte le Monete di Oro e di Argento, Romane, e delle
altre, che hanno attualmente corso nelle Stati Pontifici. In
questa Tariffa vi è anche il prezzo intorniero, o legale ammesso
dal governo all' Oro, ed all' Argento in pasta. Con avverten-
za, che l' Oro, tanto monetato, che in pasta, gode in confronto dell'
Argento di un Aggio, o sia soprappiù, oltre li prezzi descritti
nella Tariffa, del due per Cento praticato dal Commercio, ed
anche ammesso nella Cassa del Governo.

Prima di parlare delle Monete locali dello Stato Pontificio
attualmente in corso, è bene, che si abbiano le seguenti noti-
zie.

La Libbra Romana si divide in dodici Oncie.

L'Oncia si divide in ventiquattro Danari.

Il Danaro si divide in ventiquattro Grani.

Tutta la Libbra corrisponde a Gramme di Francia 339,07,28.

La Moneta Romana è lo Scudo, che si divide in Cento Bajocchi,
ovvia in dieci Paoli, di dieci Bajocchi l'uno; il Bajocco si di-
vide in Cinque Quattrini.

Moneta di Oro

Il Zecchino d'Oro della valuta di Scudi due, e Bajocchi quin-
dici in Oro (senz' Aggio) è coniato alla Pontà superiore
di Karati ventiquattro, ed al Taglio di Novantanove Zec-
chini per Libbra.

La Doppia d'Oro della valuta di Scudi Tre, e Bajocchi quin-
dici in Oro (senz' Aggio) è coniato alla Pontà di Karati
ventidue, ovvia di $11\frac{1}{2}$, ed al Taglio di Settanta due per Libbra.

Le Moltiplicate, e li Spezzati sono rarissimi, perchè antichi
consumati, e sono in giusta proporzione colle loro unità.

Moneta d'Argento

Lo Scudo Romano, ovvia Moneta di Paoli dieci, o di Bajocchi
Centi, è coniato alla Pontà di Onzie undici, ovvia di
 $11\frac{1}{2}$, ed al Taglio di Scudi dodici, ed $\frac{83}{100}$ per ciascuna
duna Libbra.

Il Mezzo Ludo da Bajocchi Cinquanta, Il Testone da
Bajocchi Trenta, Il Quinto di Ludo da Bajocchi Venti,
ed il Ludo da Bajocchi Dieci, sono coniate alla stessa Ban-
ta di Onice 11, ed allo stesso Saggio d' Ludo Rodio $\frac{83}{100}$
la Libbra.

Il Mezzo Ludo a sua metà sono in tutti conformi, ma la
Banta è di Onice 10. $\frac{22}{100}$, cioè due Denari di meno delle
altre Monete.

Moneta di Rame

Bajocco

Mezzo bajocco

Quattrino

Queste Monete sono coniate in ragione d' Libbre tre e
mezza di Ludo. Cioè Cento Bajocchi di Rame devono
pesare Libbre tre, ed Onice sei, ecciti in proporzione
li mezzo Bajocchi, e quattrini.

Si avverte, che tutte le Monete, che assolutamente non
corrispondono alle pesi legali riportati in Tariffa, su-
rà difetto della circolazione, che le diminuirà di peso.
Si possono vivere delle piccolissime differenze fra Monete,

From B. Patterson, Director of the Mint, December 29th 1817. Addressed to
Jonathan Smith, Cashier, United States Bank.

Agreeably to your desire, I send you the average results of a
great number of assays made at the Mint on the different species of
Silver Bullion and coins commonly imported from America. Also of the
Gold and Silver coins lately or at present current in the U.S.

Robert Patterson Esq.
Director of the Mint

Dear Sir,

From the best estimate we have been able to
make, the following amount of Silver is melted
in the U.S. for purposes of manufacture —

In Phila	120,000	Dollars
New York	80,000	
Baltimore	30,000	
Boston	30,000	
In all other places about	40,000	
Total	300,000	

Of this amount, probably about one third is
American coin — the remainder is old Plate,
Spanish Dollars, & Millions of various kinds. —

It is believed that the quantity of American
Gold coin melted is so trifling as not to be of
any importance. —

Silversmiths seldom melt American coin
if they can conveniently procure French
Crowns & Spanish Dollars — when these are at
a premium, they are obliged to use American
half dollars. —

Yours respectfully

Richard Gardiner

Sir

Mr. Henry Trust, the artist employed
to execute medals for Commodore Perry & others, will deliver this
letter. The object is respectfully to request you to aid him in
having the medals struck as early as practicable. He has not machi-
nery adequate to the purpose, & is therefore under the necessity of applying
to the Mint of the U. States to have them struck.

Any gratuity that you can render will be gratefully acknowledged
by the General & myself, as well as by Mr. Trust.

Very respectfully

Sir

I have stated with Mr. Hunt. I have in consequence
of a misunderstanding arising from a conversation with
Mr. Eckfeldt that when the former settlement was made
with Reisch - agreed to allow 250 for each head, which
is a little more than was paid to Reisch - but the latter
was in government employ, the former not, and this is
allowed him in the Navy Department.

They are now in the hands of Mr. Eckfeldt who made them
& who is to hand them. This, as in the former case, is at
the risk and expense of the U. States; they will then be
polished and returned to Mr. Eckfeldt.

It is necessary now to give you directions as to the
number of medals to be made.

When the Medals were struck with the Madison Die,
176 were of the smallest size
176 of the second do
112 of the largest.

Your letter of 15. June mentions 300 Medals. Do you

mean 100. each? That letter refers to one of 3^d June
which having been mislaid, you will oblige me with

Mint of The United States 8th Decr 1819

I have to apologise for an unintentional error in my Report to the Treasurer of the Mint on the deposit of Silver made on the 2nd instant by the Bank of The United States.

At the first introduction of the Revolutionary coins, as deposits in the Mint, assays were repeatedly made of the various descriptions of which they were composed & the results of those assays formed the basis of my calculation of all subsequent deposits in those coins & their correctness was abundantly confirmed by Experiments constantly made during the process of coining. A considerable proportion of the above mentioned deposit consisted of a new species of coin of better quality than was apprehended. On assaying this Silver after it was cast into ingots fit for rolling I discovered that the quantity of standard Silver contained in the Deposit had been somewhat underrated, in consequence whereof I have furnished the Treasurer with a more correct Report, affording ample justice to the Depositor.

Thy respectful friend

The specimen of ore which I have rec^d with your letter, the first
having been compared with similar specimens of the same mineral
located in Mr. Hanks' collection, appears evidently to be a
siliceous oxide of iron,

A description of this mineral may be found in "Clavels and
Cronology" [Boston edit. 1816 p. 48] extracts from which I have copied
to save you the trouble of a reference to the book.

"The colour is iron black &c. &c. & is said to yield about 40 per cent of iron" It is, however, difficult of fusion, & I believe, but seldom worked in the foundries —

A. Patterson Esq.

Sir
The annex^d is the completion of the contract
for twenty five tons of plumbago entered by our
Mr. Wm. Harrold: by letter received ~~from~~ yesterday
from our Agents Messrs. J. & D. Stansfeld at Liverpool.
We regret to say there does not appear any likelihood
of a ship offering for Philadelphia this year: we
are at a loss how to act, but continue to advise
you that the 37 books are now in our Warehouse
(Rupert Quay) till we hear of a vessel: we think it best
to keep them in Birmingham to save the heavy charges
expences they would incur at Liverpool — we shall
be much obliged by your early instructions how to
proceed: either by letter, or through the medium of
Mr. Harrold: in the mean time we are with very respectful
of respect truly Sir, your much obliged and
ob^d serv^t

Robt. Harrold

Washington Oct. 26. 1819.

Sir

Enclosed you will find a draft on the
Bank of the States for \$7500 the amount of which
I wish to obtain in cents to be forwarded to
me as early as practicable.

With high respect

I am

Sir

Yours obed. Servt.

Thos. B. Dashiell

Capt. Hand, who runs a
packet from Phil^a
to this place, would be a
suitable person to
take charge of the
cents.

Is pleased to furnish Mr. Dashiell with
cents, as above requested.

Robert Patterson Esq.

Sir

The annex. compleats all the plans which
I could obtain copper for, to enable us to send
at your limits. The East India Company purchased
2000 tons unexpectedly and principally out of this
Town's Company's stock, which has raised the
price beyond the P. & O. 500 in addition to 1/2 p. lb.
we shall therefore wait your further instructions &
then you will probably know Mr. Howard with, he
assured for every price has been taken in the selling
& manufacturing of this and former ^{lot} as to weight &
color. I hope what we have done will be satisfactory
you may rely on our best attentions to every thing you
are pleased to confide to us with very consideration for
Respectfully your Obedient Servant

Department of War
April 29 1847.

Sir,

The regulations of the Department for the government of the military academy at West Point, of which an abstract is inclosed, direct, that the students of that institution shall be examined in all the branches of general and special instruction that which they have received, in the presence of a board of visitors and such other literary gentlemen as shall be invited to attend. In conformity with which I have the honor, in the absence of the Secretary of War, to invite you to attend the examination of the cadets at West Point, which will commence on the 1st of June next.

The Secretary of War will be highly gratified to receive a report of your observations upon the actual state and progress of the institution and such suggestions for its advancement and improvement as you may deem necessary.

Should it meet your convenience to accept this invitation, Major Thayer, Superintendent of the Academy, will be instructed to make suitable arrangements for your reception and accommodation.

I have the honor to be
Your most obed^t serv^t

Extracts of the "regulations adopted in relation to the Military Academy at West Point."

A board of visitors shall be constituted to consist of five gentlemen versed in military & other science, of which board the Superintendent shall be President. The President & members of this board shall be present at the Academy during the General examination, for the purpose of ascertaining the progress & improvement of the students in the various branches of science & instruction, and also for the purpose of examining into every thing relative to the internal organization, management, and police of the institution.

There shall be two general examinations in each year. At those times the students shall be examined by the Professors in all the branches of science & instruction, thro' which they have reported, in presence of the board of visitors and such other literary gentlemen, as shall be invited to attend.

Two reports shall be made out annually by the board of visitors, one immediately after each of the general examinations, which shall contain a full development of the actual state & progress of the institution, and such

suggestions for its advancement, improvements as the
Board may think necessary. The report will be trans-
mitted by the Inspector-General to the Secretary of War.

Sir,

I enclose the Certificate of the receipt of 16,426 Cows this day deposited at the mint. If it be your wish, as I have understood you have expressed it, in a letter to Capt. Jenkins, to receive the same in quarter dollars piece, it can be accomplished in the course of two months. The mint is at present engaged with a considerable deposit of gold, when they shall have been finished, it will begin the silver at present on hand when after the completion of some minor deposits, yours will be taken up & probably effected at the fund above mentioned.

Treasury of the United States
Washington Oct 6 17th 1820

Sir,

Your favor of 6th inst. is received, & I have paid attention to the subject thereof.

By referring to my letter of June 10th 1816 you will observe that you are thereby authorized to pay the expenses of transportation of goods by water, insurance included; and as the President of the U. S. has obligingly offered his aid towards the necessary arrangements, there can be no obstacle to the distribution by water to the extent required & permitted by the Branches of the U. S. in the sea coast, they passing the respective amounts to the credit of the Treasurer of the U. S. or transmitting to you drafts on the Parent Bank, which last mode would be preferred that the whole of the credits might be in one Bank. The credit in the U. S. in its branch here would be equivalent to specie, a Treasury Note which are no longer required. In all cases of transportation you will please to be particular, in taking for every item of expense, receipts to accompany your quarterly accounts.

With respect to the transportation by land, difficulties formerly occurred which could not be removed, & as the Secretary of the Treasury is absent, I cannot undertake to enlarge your powers. When he returns, I shall consult him.

Suffer me to remind you of the indispensable necessity of rendering your accounts every quarter, however small the amount.

Treasury of the United States
Washington October 17th 1820.

Sir,

I have the honor to acknowledge the receipt of
your favor of the 9th inst. on the subject of the distribution of Cents.

With respect to the condition imposed by the Secretary of the
Treasury, namely "that for every parcel distributed, full & imme-
diate payment of like amount be secured in specie or Treasury Notes
and not otherwise" it is to be observed that in the then existing
state of things, such a requisition was necessary to insure the receipt
of the actual value of the Cents, instead of a mere nominal value in
depreciated paper. But now a credit in the U. S. States or any of its
branches (but preferably in the former as being more simple) will be
accepted as a good payment, this being secured without delay on the
receipt of the Cents.

The Treasurer of the Mint by reference to my letter of June 16th
1816 addressed to him as Agent for the distribution of Cents, will find that
he has full authority to pay freight & insurance of any cents, sent by
water, payment for the same being secured as above expressed. I am
much obliged to the President of the Bank of the U. S. States for his friendly
offer of aid in this business, which is very acceptable.

Sir,

The Secretary of the Navy has expressed solicitude that the aid of the mint in striking medals ordered by Resolutions of Congress to be presented to such of the Naval Officers of the U.S. as distinguished themselves during the late war, should be promptly afforded. I have the honor to request, all the aid which can be given in the execution of this service may be promptly furnished.

As notice has been given, that they are ready for distribution, some dissatisfaction may arise, if they should be applied for before they are ready.

I remain with respect

Your most obedient

Director of the
Mint.

Deniers & their subdivision into 24 parts called grains are mere nominal weights used by a payer to express the quantity of fine silver contained in any given weight of silver Bullion in the same manner as Carats & their subdivisions are for gold Bullion, one denier being $\frac{1}{12}$ part of any given weight. To exemplify the subject we will suppose the Spanish stamps on a bar of silver to be 11 D 21 & 6 24 & this would be 11 deniers & $\frac{7}{8}$ or 11 ^{den} 17-12 in 12 ounces troy, the gold being composed of grains of the same troy weight will correspond with all the Apays that ever I have made of such mixtures & will be ^{to} 16 grains in the Spanish Mark counting the Marc at 8 ounces

Treasury Department

31st July 1821

Sir,

I have the honor to return the letter of the Director of the Mint to you, under date of the 28th inst. relative to the distribution of Cents & half Cents, under the provisions of the Act of the 3^d of March 1790.

By that Act the transportation of the Copied Coins of the U.S. whether by land or water is to be at the expense of the Government. As the notice issued by the Mint, apparently confirms the transportation of Cents to water carriage, it is probable that applications for Cents from the interior States, have been prevented by that circumstance. The notice also requires that a sum equal to the amount of Cents applied for, shall previously be deposited in some Bank of Philadelphia, or in one of the Offices of the Bank of the U.S. Applications from States in which no Office has been established, may have been prevented by the inconvenience of making a deposit out of the State.

If

If the Mint should be authorized to issue a notice, violating these two objections, it is probable that applications for Cents would be regularly made from time to time, according to the real demand in the different states for that kind of Coin. The modification required in the existing notice of the Mint is two fold. 1st That the transportation of Cents, would be effected at the expense of the United States, either by land or Water to any point within the Union. 2^d That Cents would be thus transmitted, upon the presentation of a Certificate of deposit to the credit of the Treasurer of the United States, in the Bank of the United States, or any one of its offices, or in any State Bank, which performs the duties of Commissioners of Loans, or Agents for paying pensions, in those states where no office has been established. The Cents in all cases to be sent to the state in which the deposit to credit of the Treasurer shall have been made.

I request therefore that the notice issued by the Mint may be thus modified.

I remain with respect

Your most Obedt servt

(Signed) W^m H. Crawford.

Treasury of the United States
August 4th 1821

Sir,

Your favor of 25th Baltimore was duly received. An absence of a few days from this City has prevented a more early attention to it.

On coming first into this office, I adopted the practice of my predecessor, on the subject of the distribution of Copied Coins, because I perceived it was founded on necessity & the impracticability of a strict compliance with the letter of the law.

In the course of the late war, difficulties arose occasioned by the depreciation of paper money in circulation. Mr. Dallas, then Secretary of the Treasury was consulted & he laid the subject before the Committee of Ways & Means, who declined to interfere at that time & the Secretary recommended the same practice to be continued, only stipulating that the payments should be made in Treasury Notes or Gold or Silver.

Your favor has been referred to Mr. Crawford present Secretary, a copy of whose letter will be found
herewith

herewith enclosed, & I beg you to consider it as your guide
in distributing Copper Coins. It is particularly to be observed
that a certificate of payment must precede the delivery
of the Coins.

I shall write to Dr. Rush authorizing him to consider
the accompanying letter as an instruction.

I am, Very respectfully

August 6th 1821

Having not long since received a letter from Robert Patterson Esq^r Director of the Mint, on the subject of the distribution of copper coins, & having referred the same to the Secretary of the Treasury, I send you below an extract from his letter to me in reply, namely,

"The modification required in the existing notice of the Mint is two fold. 1st That the transportation of Cents would be effected at the expense of the United States, either by land or water to any point within them & 2^d that Cents would be thus transmitted upon the presentation of a Certificate of deposit to the credit of the Treasurer of the United States, in the Bank of the United States, or any one of its Offices, or in any state Bank, which performs the duties of Commissioner of Loans, or Agent for paying Pensions, in those states where no office has been established. The Cents in all cases to be sent to the state in which the deposit is to the credit of the Treasurer shall have been made."

Which

Which extract you will please to consider as your instruction in the future execution of that business.

This subject was presented to my notice by you last fall, at which time the secretary was absent, & subsequently a long and severe illness prevented me from attending to it.

Baltimore 19 April 1821

I have had the honour to receive
your esteemed favour of the 17th instant. To the
contents of which I have duly attended.

I suppose nothing better can be done with
the Deposit of the Turkish Silver Coin ^{than} that you will
pay the whole parcel as soon as convenient
and thereby ascertain its precise value, of which
you will please thereafter inform me, when I will
endeavour to make arrangements for it, with
the Bank of the United States. Should I fail
in my expected arrangements with the Bank.
I presume under the sanction of the Bank that you
will permit me to withdraw the assayed Silver by
paying expenses, or that you will grant a Mint
Certificate for the full value.

I remain very respectfully
Yr. M^o S^r Serv^t
John Darnall

Robert Patterson Esq:
Director of the Mint,
Sir,

Baltimore 20th April 1821.

On examining more minutely into your favor of
the 7th. It appears that the weight of the Coin, say 51.751 ounces, is considerably
short of my expectations, as thereby the average weight of the piece is only
at least 5th grains. If the whole has been estimated by the weight of
those which was assayed, the result may prove different when the
whole parcel is more particularly weighed. Because, as stated to you,
in my letter of 9th accompanying them, there is a difference in each
year's Coinage, as well in quantity as quality of Metal: from which
I trust the final result of the assay, may be more favourable.

I confirm that of yesterday, and request that you will as
early as practicable, be pleased to have the whole assayed to the
American Standard, and notify me thereafter, of the Net proceeds,
after deducting the Charges.

With great respect I remain

Sir

Your O^bd^t Serv^t

M. 11. 1. 24. 1821

Sir On the contents of your letter of yesterday, I have to inform you that the weight of the whole was not estimated by the weight of these pieces which were assayed - but the whole deposit was actually weighed in 100 different draughts (the contents of a single bag at each draught), & that the whole gross weight was 81,791 oz. as stated in my last.

In the weight of the individual bags there was indeed, a considerable difference, varying from 812 1/2 oz. to 787 3/4 generally, however, ^{from} 820 to 816.

Early next week the assay will be completed, & the result shall be ^{then be} ~~immediately~~ ^{officially} communicated to you. I am Sir very respectfully
your ob. Servt

R. P.

M. 11. 1. 24. 1821

Accordingly to the instruction in my last (24th) the assay of the Turkish silver coins has this day been completed.

The result from the assayers Report is as follows

Gross weight	81,791 oz.
Standard weight	67,821 1/2
Amounting to	\$ 78,255. 17 1/2
Deductions for refining	750
	\$ 77,505. 17 1/2

An official certificate of the above from the Treasurer of the Mint will be made ~~transmission~~ to the B. of the L. in whose name the deposit was made, & who will have liberty to withdraw ^{the same} ~~the~~ of down in a reasonable time without any charge for making the assay.

Bull^d 26th April 1821.

Sir,

I have received your favor of 24th Inst^l and observe your statement of the final result of the assay to be \$77,505.57^{1/2} and that an official certificate for the same will be made to the Bank of the United States by the treasurer of the Mint.

This is as it should be; as the Bank will of course pass the same to the credit of its Office here, which had (as I observed in my letter to you of 9th accompanying the coin) given me credit for it. Therefore when the certificate is delivered to the bank, the transaction ends between the Mint and myself.

Respectfully, I remain, Sir

Your O^bd^t Serv^t.

Robert Patterson Esq.

Sir I take the liberty of addressing you to obtain information at what rate the U.S. Mint will receive Silver Bullion; — I have at my disposal 26,952 oz. of Silver in Bars or Pigs and Plata Pina, one half of it is Bar Silver assayed & marked 11 ^{grs} 20. ^{grs} 22 which marks I understand define the quality of it, & with which I presume you are acquainted; please let me know at what rate you receive this kind of silver.

The other half is Plata Pina this term you are probably better acquainted with than I am, I am told 'tis a more natural state than the former, having only the Zenichsilver taken from it. you will also please say at what rate this would be received by the mint.

This Silver came from South America in the Macedonian and if your rates will make it for the interest of the owner to send it to the Mint, rather than dispose of it at the prices offered for it here he will send it on.

Yours With Respect

Henry Burroughs
No 74 State Street

Miner of M.D. June 27th 1828.

Sir,

In reply to your favor of the 28. I have to observe - that no statement can be made, with accuracy, of the value of the silver which you have described, especially of the Plate finery (amalgamated, I presume) as that, in melting, loses considerably, (from the evaporating of the mercury,) of its weight. After melting, however, it will be worth $\$1.28$ per oz. - judging from the average of numerous trials. The loss of weight, in melting, has been found to average about 16 parts in 1141, which would give the value of the gross weight at the rate of about $\$1.26$ per oz.

The value of the bar silver, according to the quality which you have stated, will be about $\$1.27$ per oz. If the silver, however, be deposited in the Mint, for coinage, it will be assayed, & a certificate given, by the Treasurer, for the real value without any deduction; which certificate will entitle the presenter to receive the full amount, when coined, in American silver coin. Or, the amount of the certificate will be paid instantly by the B.M.S. making a discount of $\frac{1}{2}$ per cent.

Henry Burroughs Esq.

Dear Sir,

Agreeably to your request, a remittance, has been this day made to the Treasurer of the Mint, in two drafts on the Branch Bank at New York, one thereof for four thousand dollars on account of the incidental expenses of the Mint, and the other of sixteen thousand dollars, to be applied to the payment of the debt due to Mr. Bolton for copper blanks.

I wish only add, that the want of funds in Philadelphia has prevented me from sooner complying with your requisition and that even now, I have been under the necessity of making the remittance in drafts.

Sir,

The bearer has under his charge 21 Casks
of Turkish Silver Coin, containing 100,000 Pieces as noted at
foot, which he will deliver to you as the property of the Bank of
the United States.

I some time since Imported this Coin from Cayenne, and deposited
the same in the Office of the Bank in this City for which I was
credited at an estimated value, subject however to the result of its
assay at the Mint.

I beg leave to state to you what my Agent who purchased the
Coin, observes. viz. "all the Turkish Office of different Years Coinage
differs in quality as well as weight, therefore by having assayed
only a few pieces the real value of the whole cannot be ascertained."
"It follows that to get the accurate value, the whole must be assayed."

As these coins are in fact the property of the Bank, and that I have
a credit on them in the Office here for a supposed value it cannot
be materially necessary for the Mint to make any report of the value
before the whole has been assayed.

I had the pleasure of address-
ing you ^{yesterday} Mr Janvier who will deliver to you 20 casks
Turkish Silver Coin. The present will be handed you
by Mr. Morris who has in charge to be delivered to
you a bag marked I D containing 20000 Rubies Turkish
gold weighing 10,222 divt. 8 1/4 grains and in same bag
is a small paper roll containing 50 Venetian Sequins
weighing 111 divt. 6 grains. This coin is for the use of the
Bank of the United States on the same principle as
stated in my letter accompanying the 21 casks of
Silver.

In assaying you will separate
the Sequins from the Rubies and you will please
report the result of each. It is probable that
the gold may be delivered at same time as the
Silver. you will please furnish Mr Janvier with
a receipt for both delivered by me at the Mint for
the use of the Bank. I remain very respectfully

Yours to serve

Miss U.S. Ap 17 1825

See

The gross weight of the Turkish silver coins recently deposited by you at the mint was 87951 ounces, & from a number of assays taken indiscriminately from ^{about very nearly equal to the} five differently bagged (300 pieces from each bag) the quality appears to be 362 dwts in ^{the} pound ^{more} than the American standard. The intrinsic value, therefore, of the pure silver in the whole deposit (according to the assayers report) will be \$78255. But from this there will be deducted for refining (merely to cover the expense of the lead & other materials used in the process) not less, perhaps a little more than \$600

If you can do better with this deposit than to have it coined at the mint, which will employ some months, you will be at liberty to withdraw it, with the exception of the 800 pieces which have been melted for the assayer, for which their value will be returned in American silver coins.

Your final determination you will please to communicate as soon as possible

Robert Patterson Billes & Hardware

Robt. Patterson Esq.

Birmingham 18th Aug 1821

Sir

We are very sorry that your steam'd order should have been so long in hand. The delay was occasioned by the difficulty in procuring the best steel for Dies. in it we hope that we have been successful. we have not been able to learn any better method of procuring the quality than by breaking it - a continuance of your steam'd favors will oblige

Sir

Yr Obedt Servt

upon all kinds of lawful Goods and Merchandises, laden or to be laden on board of the good *Schooner* called the *Knickerbocker* or whosoever else shall go for Master whereof is Master for this present voyage *Wells* the said vessel, or the Master thereof, is or shall be named or called: Beginning the adventure upon the said lawful Goods and Merchandises, from, and immediately following the loading thereof, on board of the said vessel, at *Philadelphia* aforesaid, and so shall continue and endure until the said Goods and Merchandises shall be safely landed at *New York* aforesaid. And it shall and may be lawful for the said vessel, in her voyage aforesaid, to proceed, and to sail to, touch, and stay at, any ports or places, if thereunto obliged by stress of weather, or other unavoidable accident, without prejudice to this Insurance. Touching the adventures and perils which the Assurers are contented to bear and take upon them in this voyage; they are, of the *Seas, Men of War, Fires, Enemies, Pirates, Rovers, Thieves, Jettisons, Letters of Mart, and Counter Mart, Surprisals, Takings at Sea, Arrests, Restraints and Detainments of all Kings, Princes, or People, of what Nation, Condition, or Quality soever, Barotry of the Master and Mariners,* and all other perils, losses, and misfortunes, which have, or shall come to the hurt, detriment, or damage of the said Goods or Merchandises, or any part thereof. And in case of any loss or misfortune, it shall be lawful to and for the Assured, *his* factors, servants, and assigns, (and the said Assured on *his* part agree and engage by *himself* *his* factors, servants, or assigns), to sue, labour, and travel for, in and about the defence, safeguard and recovery of the said Goods and Merchandises, or any part thereof, without prejudice to this Insurance, to the charges whereof the Assurers will contribute, according to the rate and quantity of the sum herein insured. And it is agreed by the Assurers, that this Writing or Policy of Insurance shall be of as much force and effect as the surest Writing or Policy of Assurance heretofore made in any of the UNITED STATES OF AMERICA, or elsewhere. And so, the Assurers are contented, and do hereby bind the Capital Stock, and other common Property of THE UNION INSURANCE COMPANY OF PHILADELPHIA, to the Assured *his* executors, administrators, and assigns, for the true performance of the premises, confessing themselves paid the consideration for this Assurance, after the Rate of

One per Cent

And in case of Loss, the Assured is to abate *Two per Cent.* such Loss to be paid in thirty days after proof and adjustment thereof; the amount of the Note given for the Premium, if unpaid, being first deducted. PROVIDED ALWAYS, and it is hereby further agreed, That if the said Assured shall have made any other Assurance upon the premises aforesaid, prior in date to this Policy, then the Assurers shall be answerable only for so much as the Amount of such prior Assurance may be deficient towards fully covering the premises hereby assured, such amount being understood to be the whole sum underwritten, without any deduction for the insolvency of all or any of the Underwriters, and that this Policy, so far as the property has been previously insured, shall be considered as null and void to all intents and purposes, and the said Union Insurance Company of Philadelphia shall return the Premium upon so much of the sum by them assured, as they shall be by such prior Assurance exonerated from: And that in case of any Insurance upon the said premises subsequent in date to this Policy, the said Union Insurance Company of Philadelphia shall nevertheless be answerable for the full extent of the sum by them subscribed hereunto, without right to claim contribution from such subsequent Assurers, and shall accordingly be entitled to retain the Premium by them received, in the same manner as if no such subsequent Assurance had been made.

In Testimony whereof, The Union Insurance Company of Philadelphia have caused their common seal to be hereunto affixed by their President in Philadelphia, this *Twelfth* Day of *June* in the Year of our Lord one thousand eight hundred and twenty *two*

Memoranda. It is agreed, That Salt, Wheat, Indian Corn, Pease, or any other kind of Grain; Malt, Bread, and Dried Fish stowed in bulk; Leaf Tobacco, whether in Casks or otherwise; Fruit of all kinds, and any other Articles that are perishable in their own nature, are warranted by the Assured free from average, unless general. All other Goods free from Average under FIVE PER CENT. unless general.

It is further agreed, that if any dispute shall arise, relating to a Loss on this POLICY, it shall be referred to two persons, one to be chosen by the Assured, and the other by the Assurers, which two persons shall have power to adjust the same; but in case they cannot agree, then those two persons shall choose a third, and any two of them agreeing, their determination shall be obligatory on both parties.

In all cases of Return Premium, ONE HALF PER CENT. upon the sum insured, is to be retained by the Assurers; and it is mutually agreed, that no Part of the Premium shall be returned or abated, on account of any deviation which shall be made by the Owners, or their Factors, from their present Voyage.

Warranted by the Assured free from any charge, Damage or Loss, which may arise in consequence of a seizure or detention of the property, for or on account of any illicit or prohibited Trade.

Permit to request an early answer to the following queries - viz:

Would be proper to require that the alloy in our gold coins should be entirely of copper?
ought the value of gold compared with our silver be greater than as 1. to 15.?

Is it correct that at the commencement of the Year 1821 there had been coined at the mint about 6 millions of American gold coin?

How much gold coin has been made there since 1 Jan. 1821? & how much gold coin altogether up to this time from the establishment of the mint?

How many silver dollars have been altogether coined at the mint?

What think you of the proposition heretofore made in Congress, that eagles should hereafter contain $237\frac{98}{100}$ of pure or $259\frac{61}{100}$ of standard gold? if so - what would the present eagle be worth at the mint?
What is the relative silver purity of the crowns of France & five franc pieces compared with American & Spanish milled dollars?

237.98
259.61
100.00

the law of 1808. rated foreign gold as follows viz

by Britain & Portugal at 100^{cs} for 27 grains

France at 100^{cs} for 27½ do.

Spain at 100^{cs} for 28 do.

Was this correctly proportioned then?

Is not ~~the~~ the proportion now?

What gold coins of ~~Spain~~ other countries
are purer & what ~~more~~ better than ours?

Please chiefly - there

Any other facts & considerations relating to the
premium will be thankfully acknowledged

P.S. Have you the means of saying what is
now in England the different relative value
in market of American gold & silver coins?
and what is the probable ^{the greatest} diminution of American coins of all
kinds within the two years last past? M.B.R.

allow me to request, that in addition to previous information with which you have favored me, you will have the goodness to indicate to me by letter as soon as you can - ^{business will permit} what has been the expense of conducting the operations of the mint say from the 31. dec 1817. (as my last informs previous to that time) ^{what have the lots buildings & machinery cost?} Now many copper coins made since 31. dec 1817? what profit (if any) since 31. dec 1817. in coining gold, silver & copper? the most ^{obvious} reasons for its being continued at Philadelphia? where do you get your gold & silver bullion from chiefly? whence your copper? what improvements may be made? what amendments can you suggest? will not S. American increase your business? don't you now get a good deal from them? and what proportion? the gains on coinage? the loss by wastage? the ^{amount} retained of deposits since 31. dec 1817? and any other information which I have omitted to ask for & which you may deem important? I want to report soon and I wish to be enabled to satisfy inquiries which may be made when discussing the bill

S^r.

The Committee of Ways and Means have requested me to inform them of the general character & necessity of the expenses of the mint; the reason for a larger appropriation for the present than the last year, & whether they are susceptible of any reduction consistent with the public interest. You will oblige me by enabling me as early as possible to give the information required.

This soil therefore is of no appreciable value.

Sir:

On the 2^d February 1823 I had lodged in the Mint by Mr. Lausat a plate of silver the receipt for which was duly remitted to me by Mr. Lausat but owing to a presumed inaccuracy my Christian in the receipt is incorrectly set down, it is H. instead of James Rosley, I presume the mistake may be easily corrected.

I now send by Mr. Long three plates nearly similar to the one lodged in the Mint by Mr. Lausat. I will thank you to ascertain their value and remit to me an order on the office in this place for the amount of the whole. The receipt now in my possession for the former plate (Ant 495.25) will of course remain subject to any order the Mint may give concerning it.

Respectfully Yours Abt Lot

Sir

I hope I shall in due season have the pleasure of hearing that what I have recently done for you meets with your approbation. I gave the order for the scale beam &c to De Grave then of London who make balances and weights for most of the public bodies in the metropolis, and are considered at the head of their trade. They informed me at first that the weights could receive no other official mark than that of the Exchequer, where the standard weights and measures of the kingdom are kept. This resort however could not be thought of for the purpose of marking weights such as yours were to be, because the Exchequer Troy weight standard is not the same as that of the Mint of England. De Grave promised me a stamped weight from the Exchequer to send to you, the better to show the discrepancy, but although I have taken pains to remind him it is not yet come, and I have lost the memorandum I took of the matter when I was in London, so that I cannot now be more circumstantial on this point. As De Grave stated that he was known at the Mint, I requested him to apply to the proper officer to regulate the weights for the United States by those of the Mint, which he engaged to do, and he was answered that the Mint never regulated weights. From what passed at the first interview there appeared an opening to renew the subject, and it was done with success, the officer of the Mint saying that though they had never obliged any one in the manner solicited by Mr De Grave, they would oblige him and would have a set of marks made on purpose. This was

punctually performed, and your weights are sent perfectly agreeing with the Mint standard, and I hope they will, as well as the beam which De Gaur assures me is an excellent one, prove in all respects equal to your expectations.

I trust the Planchets will be approved - We have taken much pains to make them equal to the sample given me by Mr Eckfeldt - The price I think is lower than any we have sent you before - I hope you will think proper to send me an order for another quantity.

The rolls are made, and are now lying in my warehouse, but we dare not venture to attempt to ship them alone, lest some over-curious person or authority at Liverpool should pry into the nature of the package - In the course of the ensuing season we expect opportunities of sending them without exciting inquiry.

I remain Respectfully,

Your obliged servant

Sir

The general hardware business lately carried on under the
firm of Harris & Belles, I shall continue with the assistance
of my son, and those persons in England, who have all
along been employed by the late house. Whenever
Planchets are wanted for the Mint, I hope you will
oblige me with your orders for them. My son has
formerly had the superintendence of the execution of your
orders, and on trial, I doubt not you would find that
he possesses the ability, and the will to give you
complete satisfaction.

If Copper continue at the price lately quoted from Bir-

for Planchets lower than at any former period.

Walt Patterson Esq^r
Sir

Birmingham November 1. 1823

I have the pleasure to hand you an
Invoice of the remainder of your resigned order for
Pianobells. The first lot were through an accident un-
fortunately detained in Liverpool till after the October
Packet ^{and only} just the quality of the Pianobells will be
found such as to induce you to favour us with another
order, to which you may depend upon having most
particular attention paid; receiving you to a letter
from my Father

I am Sir

Very respect^{ly}

Sir

Almsaid I have the pleasure to hand you
an Invoice of a portion of your much esteemed order for
Planchetts which I trust will be found quite to your satis-
faction. I will procure I have been enabled to do them
somewhat cheaper than heretofore; the remainder of them will
follow as early as possible. I have 3 pairs of Notes for you
which must not be enclosed at different times in some of
our Philadelphia packages as they would be seized at the
custom house at Liverpool most probably if sent by them-
selves. My Father is now in London and will endeavour to
get the scale beam so made to your wishes it will probably
be 6 weeks before it can be sent.

In all your commands I am Sir

Very respectfully

Sir, Having a few thousand
dollars worth of Silver Bullion in the safe pos-
sion as imported from South America, I am desirous
of knowing at what rate it is bought at the Mint
whether for the number of Grains of pure Silver contained
in a dollar, one hundred and six grains, or otherwise.
Also wish to enquire what time would probably elapse
after the Bullion was delivered before the assay would
be made of the silver or standard. An answer
is respectfully solicited as soon as possible.

With respect many beg humblest

Sir,

Mr. Hopkinson, to whom was confided the
superintendence of the execution of the medals voted
by Congress to certain General Officers, reports
that there are ~~two~~ dies, the only ones to be finished
now in the mint for hardening, & have been there
for some months. As it is desirable to have
these medals struck as early as possible, so that
the President may deliver them at an early day,
I will thank you to give the necessary orders to
the Director of the Mint to cause the hardening
of these dies and the striking of the medals to be
made as early as possible, consistent with the
duties of the institution.

This is to certify that during the year 1807, I became acquainted with Mr. M. Dear Sir.

The Galena detached from the
specimen of Ore which you placed in my hands
for examination was carefully tried by M^r. Glend
at the Mint where accuracy is well known
and yielded within a small fraction of 80 per
cent of good Lead. The result of an examina-
tion by M^r. Richardson to determine the
proportion of Silver was one part of Silver
to ~~ten~~ hundred parts of the Lead.

The Galena was not submitted
to a strict Chemical Analysis but a treat-
ment resembling that which must be
resorted to in large operations. Probably

a nice Analysis would afford as in the
Missouri Ores ten to fifteen per cent
more

Yours respectfully
